The image shows a graphical user interface window titled "Robert Tonkin/New Document/New Document". The window has a standard Mac OS-style title bar with a close button (X) on the right. Below the title bar is a menu bar with "Help Logout". The main content area is divided into two sections by a horizontal line. The top section is labeled "Projects" and is currently empty. The bottom section is labeled "Add Documents" and contains a text box with the following instruction: "Enter a name for the new document and select either to base it on a previous document or to start from scratch. The document name may be up to 32 characters in length." Below this instruction are two labels: "New Document Name:" and "Based On:". The "New Document Name:" label is followed by a text input field labeled 301. The "Based On:" label is followed by a dropdown menu labeled 302, which currently displays "(from scratch)". To the right of the dropdown menu are two buttons: "OK" (labeled 303) and "Cancel" (labeled 304). A lightning bolt symbol points from the number 300 to the top of the window frame.
